The Authorized Distributor of Club Car in Thailand, Laos and Cambodia

CARRYALL 500

Grounds Maverick. The Carryall 500's commanding but easy to maintain 10.3 kW rated Subaru engine with electronic fuel injection can tow up to 1,200 lb (544 kg) Enough capacity to haul pine straw and the tools necessary to make short work of your grounds maintenance. That's more muscle per mile . . . anyway you look at it.

CLUB CAR BY BEYOND GREEN

VERSATILITY &

RELIABILITY

Payload : Total vehicle capacity of 1,200 lb. (544.3 kg).

Improved charging : The industry's only standard on-board high-efficiency charger with cord retractor. This new system operates on voltages around the globe, tolerates voltage swings that would shut down lesser chargers.

Durable than steel : Carryalls are built on Club Car's exclusive lightweight, rustproof, air-craft-grade aluminum frame that's designed to be stronger than steel. Unlike competitive steel frames, it resists corrosion and retains resale value.

Fit-to-task utility. A one-of-a-kind bed box with an integrated track-based attachment system, optional tool holders, bed dividers, cargo tie downs increases versatility and saves floor space. So you can do more with less.

Improved ergonomics. Cockpit style interiors with restyled hip restraints make the vehicles easier to enter and exit and an ergonomic dash puts the key switch, shifter and gauges at the driver's fingertips.

The best warranty in the industry. The industries longest standard battery, powertrain and bumper to bumper warranty.

CARRYALL 500

SPECIFICATION

POWER SOURCE	Electric
ENGINE/MOTOR TYPE	48-volt DC
CONTROLLER	500 Amp - Solid State
HORSEPOWER	"3.7 hp (2.7kW) rated, Peak 20 hp (14.9 kW)"
