PRECEDENT™

A Club Car Precedent : Your just reward

The name says it all. This is the world's most technologically advanced golf car, the model that set the standard for comfort, style, dependability and agility. These finely crafted vehicles feature:

The AlumiCore™ Frame

The industry's only rustproof aluminum frame extends the life of the car, and its unique design makes it more impact-resistant than steel.

The Excel™ Electrical System

Delivers regenerative braking that captures and stores energy during stopping.

SportDrive™ Steering and Suspension

Looking for a golf car that drives like a sports car? The Precedent's automotive-oriented chassis, steering and front and rear suspension systems deliver that and more.

Controller + IQDM

Control the electric, records the history of car : easy to check the problem by IQDM.
