

SELL - RENTAL - SERVICE - CONCESSION - SPARE PARTS ELECTRIC GOLF CARTS

The Authorized Distributor of Club Car in Thailand, Laos and Cambodia

TRANSPORTER

Designed with four or six passenger seating and a generous cargo area, the TransPorter offers a comfortable and convenient ride. Meet guests at the airport, give a tour of your facility or put it to work as a utility vehicle for your staff. With an exclusive aluminum frame up to three times stronger than comparable steel, Club Car TransPorter vehicles are not only comfortable, they're tough and corrosion-resistant to yield maximum durability.

CLUB CAR BY BEYOND GREEN

VERSATILITY &

RELIABILITY

Payload : Total vehicle capacity of 1,500 lb. (680.3 kg).

Improved charging : The industry's only standard on-board high-efficiency charger with cord retractor. This new system operates on voltages around the globe, tolerates voltage swings that would shut down lesser chargers.

Durable than steel : built on Club Car's exclusive lightweight, rustproof, air-craft-grade aluminum frame that's designed to be stronger than steel. Unlike competitive steel frames, it resists corrosion and retains resale value.

Fit-to-task utility. A one-of-a-kind bed box with an integrated track-based attachment system, optional tool holders, bed dividers, cargo tie downs increases versatility and saves floor space. So you can do more with less.

Improved ergonomics. Cockpit style interiors with restyled hip restraints make the vehicles easier to enter and exit and an ergonomic dash puts the key switch, shifter and gauges at the driver's fingertips.

The best warranty in the industry. The industries longest standard battery, powertrain and bumper to bumper warranty.

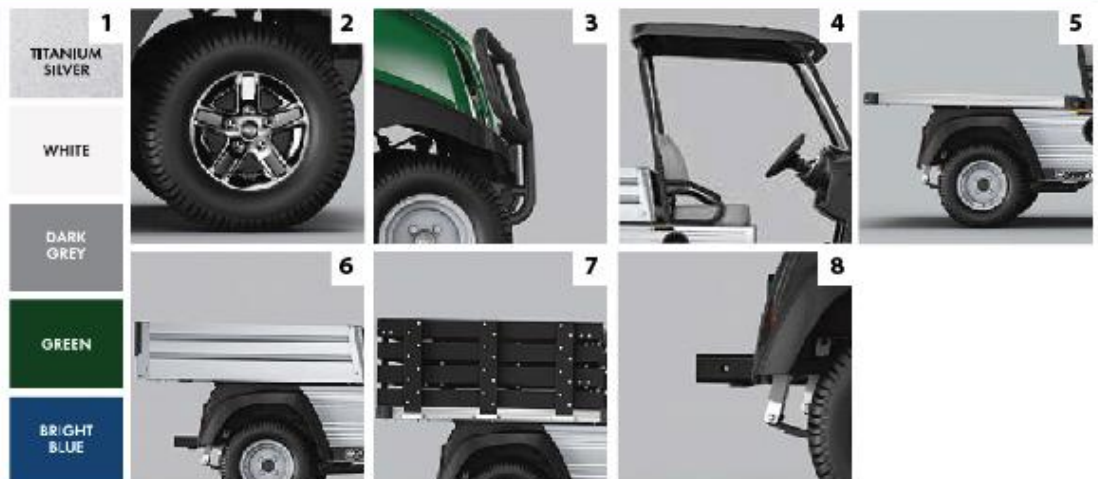

TRANSPORTER SPECIFICATION

POWER SOURCE	Electric
ENGINE/MOTOR TYPE	48-volt DC
CONTROLLER	500 Amp - Solid State
HORSEPOWER	"3.7 hp (2.7kW) rated, Peak 20 hp (14.9 kW)"
